

Dear Brothers and Sisters,

On May 1, the Office of Personnel Management (OPM) opened the 15th annual Federal Employee Viewpoint Survey (FEVS). NATCA supports this survey as an opportunity for NATCA members to express their opinions about whether, and to what extent, the Agency is successful. Your opinion is important. As we continue building and growing our collaborative relationship with the FAA, it's valuable for our members to let their voices be heard with their survey responses.

Every year, OPM extends invitations to a random sampling of all Federal employees to participate. Last year, approximately 3,000 controllers received an invitation to participate. If you are invited to take the survey, NATCA recommends that you consider participating, but decline to answer questions 87-98.

The survey is voluntary and confidential. Employees who choose to take the survey will receive one hour of duty time to complete it.

In Solidarity,

Paul Rinaldi
President

Trish Gilbert
Executive Vice President
